

# EMBEDDING THE PATIENT'S VOICE INTO PRETERM BIRTH PREVENTION RESEARCH

M23

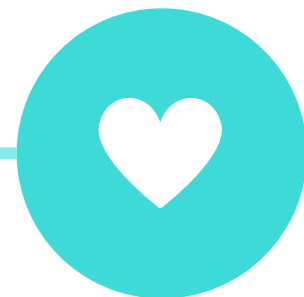

Themes from a Preterm Birth Advisory Council. Established April 2023 Dublin Ireland  
Seven Experts By Experience Identify Six Key Themes

## RISK FACTORS

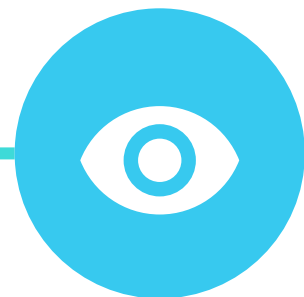

Awareness and Education for Timely Referral

## PATIENT LED MODEL

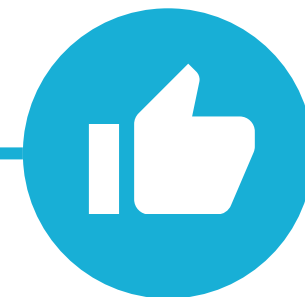

Patient-Led Delivery of Care - Psychological Support

## PRECONCEPTUAL CARE

Anticipation of Adverse Outcome can lessen associated trauma

## CLINICAL EFFICACY

Intervention Efficacy is the most important clinical research outcome

## PARTNER INCLUSION

Often forgotten, they too carry the burdern of preterm birth

## TRAUMATIC LANGUAGE

Avoid referring to mid-pregnancy loss as miscarriage
